

Edexcel Economics Theme 1

Study online at quizlet.com/_9cle41

 What is a Social Science? What is an Economic 	A study of human behaviour and interaction An Economic theory or collection of	19. Give an example of an opportunity cost for a consumer	When buying a new TV, the consumer foregoes spending that money on a smartwatch	
Model?	theories which allows us to simulate situations. They are simplified versions of the world	ws us to simulate 20. Give an example of	By spending £1000 on a marketing campaign, the firm forgoes the benefits of spending that money on	
3. Why do Economists use Models?	To simplify the world around us	21. Give an example of	capital investment By spending on NHS, the	
4. What does ceteris paribus mean?	All else equal	an opportunity cost for a Government	government foregoes the benefits of spending that money on education	
5. Why is it difficult for Economists to conduct scientific experiments?	Humans are unpredictable and varied and exist in complex environments which might affect their behaviour	22. What is a Production Possibility Frontier/Curve?	A diagram showing the maximum combination of two goods or services which can be produced if all resources are used efficiently for a given level of technology	
6. What is a positive statement?	An assertion that is objective and testable (although not necessarily true)	23. Illustrate a point on the PPF at which the productive potential	Point on curve	
7. What is a normative statement?	An opinion which is subjective and contains value judgements	of the economy is maximised		
8. Which 3 questions does the study of economics seek to answer?	What to produce? How to produce? For whom to produce?	24. Illustrate a point on the PPF which is unattainable at the current level of	Point outside the curve (to the right/above)	
9. What does 'scarcity' mean?	A limited, finite amount	technology 25. Illustrate a point on	Point on curve	
10. What is meant by a 'renewable resource'?	A resource for which the stock level can be replenished naturally over time	the PPF where the allocation of resources is efficient		
What is meant by a 'non-renewable resource'?	A resource for which the stock level cannot be replenished naturally over time	26. Illustrate a point on the PPF where the allocation of	Point inside the curve (to the left, below)	
12. What is the Economic Problem?	Infinite wants and limited resources	resources is inefficient		
13. What are the 4 factors of production?	Land, labour, capital, enterprise	27. Illustrate actual economic growth on a PPF diagram	Moving from a point inside the curve to a point closer on the curve	
14. What is the reward for enterprise?	profit	28. Illustrate potential economic growth on a PPF diagram	Curve expands outwards	
15. What is the reward for Capital?	interest	29. Explain 2 causes of an outward shift in	finding resources, immigration, investment in capital	
16. What is the reward for Land?	rent	the PPF		
17. What is the reward for Labour?	wages	30. Explain 2 causes of an inward shift in the PPF	Resource depletion (eg natural disaster, war) or resource depreciation (skills atrophy after long-term unemployment, lack of investment)	
18. Why do opportunity costs exist?	Scarcity. Since we cannot have everything, we must make decisions			
		31. Illustrate opportunity cost on a PPF	When you move up one axis, you move down the other	

32. Whatis the difference between consumer goods and capital goods?	Consumer goods provide utility directly, capital goods do not	49. What is the law of diminishing marginal utility?	As more of a good is consumed, each additional unit provides less additional satisfaction
33. What is the difference between actual and potential growth?	Actual growth is an increase in output, potential growth is an increase in productive capacity	50. What is supply?	The quantity firms are willing and able to sell at a given price (over a given period of time)
34. Explain why we would not want 100% of our production to be on	We would have no consumption (and therefore utility) right now	51. Why are supply curves upward sloping	Law of diminishing marginal returns, profit motive, attracting new entrants
capital goods 35. Explain why we would	We would forego comsumer	52. Illustrate an extension in supply	Sliding up the supply curve
not want 100% of our production to be on consumer goods	goods (and their utility) in the future	53. What could cause an extension in supply?	Outward shift in demand
36. What is utility?	Satisfaction	54. Illustrate a contraction in supply	Sliding down the supply cirve
37. What do consumers seek to maximise?	Utility	55. What could cause a contraction in supply?	Inward shift in demand
38. What do firms seek to maximise?39. What is irrational	Profit Where actions do not maximise	56. Give 3 conditions (shifters) of supply?	Cost of production, ease of production, regulations, expectations
behaviour?	utility	57. What is equilibrium price?	The price at which D=S
40. Explain 3 reasons why agents may behave irrationally	Habit, inertia, influenced by others	58. What is equilibrium quantity?	The quantity at which D=S
41. What is bounded	Rationality within constraints (eg of time, information,	59. What is a shortage?	Where demand is greater than supply
rationality?	computational skill, using rules of thumb)	60. Referring to extension and contraction, explain how shortages are	Price rises, Supply expands and demand contracts,
42. What is demand?	The amount of a good or service customers are willing to buy at a given price (over a given time period)	resolved.	
		61. What is a surplus?	Where supply is greater than demand
43. Why are demand curves downward sloping?	Law of diminishing marginal utility, income effect, substitution effect	62. Referring to extension and contraction, explain how surpluses are resolved.	Price falls, supply contracts and demand expands
44. Illustrate an extension in demand	Sliding down the demand curve	63. Explain 3 functions of the	Incentive, Rationing, Signalling,
45. What could cause an	An outward shift in supply	price mechanism	Allocative The difference between what a
extension in demand? 46. Illustrate a contraction in demand	Sliding up the demand curve	surplus?	consumer is willing to pay and the price they actually pay
☑. What could cause a contraction in demand?	An inwards shift in supply	65. How do we illustrate consumer surplus on a diagram?	Triangle between axis, demand curve and price
48. Give 3 conditions (shifters) of demand	Population, consumer income, tastes, advertising, price of complements/substitutes, seasons	66. What is producer surplus?	The difference between the price the market is willing to supply at and what they actually supply at

	67. How do we illustrate producer surplus on a diagram?	The triangle between axis, supply curve and price	84. What is the definition of cross price elasticity of	The sensitivity of demand of good A to a change in the price of good B	
definition of price elasticity of demand? 70 Give the formula for PED 71 What is meant by Price elastic demand? 72 What uses would constitute price elastic demand? 73 Draw a price leastic demand? 74 What is meant by Price elastic demand? 75 What values would constitute price elastic demand? 76 What is meant by Price elastic demand? 77 What is meant by Price elastic demand? 78 What values would constitute price elastic demand? 79 What is meant by Price elastic demand? 70 What values would constitute price elastic demand? 70 What values would constitute price elastic demand? 71 What is meant by Price inelastic demand? 72 What values would constitute price elastic demand? 73 Draw a price elastic demand? 74 What is meant by Price inelastic demand? 75 What values would constitute price inelastic demand? 76 What values would constitute price inelastic demand? 77 What is meant by Price inelastic demand? 78 What values would constitute price inelastic demand? 79 What is meant by Price inelastic demand? 70 What is meant by Price inelastic demand? 70 What is meant by Price inelastic demand? 71 What is meant by Price inelastic demand? 72 What values would constitute an inferior good? 75 Draw a price inelastic demand? 76 What values would constitute an inferior good? 77 What is meant by Price inelastic demand? 78 What is meant by Price inelastic demand? 79 What is meant by Price inelastic demand? 70 What is meant by Price inelastic demand? 70 What is meant by Price inelastic demand? 71 What is meant by Price inelastic demand? 72 What is meant by Price inelastic demand? 73 What is meant by Price inelastic demand? 74 What is meant by Price inelastic demand? 75 What is meant by Price inelastic demand? 76 What values of YED Would constitute an inferior good? 77 What is the definition of an inferior good? 78 What values of YED Would constitute an inferior good? 79 What is the definition of an inferior good? 70 What is the definition of an inferior good? 70 What is the definition of an		Consumer surplus + Producer surplus	demand? 85. Give the formula for	$\%\Delta Q$ d of Good A ÷ $\%\Delta P$ of Good B	
PED Second S	definition of price elasticity of		86. What is the definition of		
Permand is very sensitive to price calastic demand?		$\%\Delta Qd$ ÷ $\%\Delta P$		Positive	
constitute 'price elastic demand'? 73. Draw a price elastic demand curve 74. What Is meant by 'perfectly price elastic demand'? 75. What values would constitute 'perfectly elastic demand'? 76. Draw a perfectly elastic demand'? 77. Draw a perfectly elastic demand'? 78. Draw a perfectly elastic demand'? 79. Draw a perfectly elastic demand'? 70. What Is meant by 'price inelastic demand'? 70. What Is meant by 'price inelastic demand'? 71. What Is meant by 'price inelastic demand'? 72. What values would constitute 'ported elastic demand'? 73. What Is meant by 'price inelastic demand'? 74. What Is meant by 'price inelastic demand'? 75. Draw a price inelastic demand'? 76. Draw a price inelastic demand'? 77. Draw a price inelastic demand'? 78. What values would constitute 'price inelastic demand'? 79. Draw a price inelastic demand'? 70. What is meant by 'unit elastic demand'? 71. What is meant by 'unit elastic demand'? 72. Draw a price inelastic demand'? 73. What values of YED would constitute an inferior good? 74. What values of YED would constitute an incomes rise 75. What values of YED would constitute an incomes rise 76. What values of YED would constitute an income in income	'price elastic	the % change in demand will be	88. What is the definition of	Goods that are used together	
Table Flatter curve Flat		-1 to -∞	goods?		
What is meant by 'perfectly price elastic demand? If we increase price by even 1%, we lose all demand It was a perfectly elastic demand? What is the definition of income elasticity of demand? What is meant by 'price inelastic demand? Demand is not very sensitive to price 'nelastic demand? What is meant by 'price inelastic demand? Demand is not very sensitive to price 'nelastic demand? What is meant by 'price inelastic demand? What is meant by 'price inelastic demand? Unrelated goods in income elasticity of demand? What is meant by 'price inelastic demand? Unrelated goods The sensitivity of demand to changes in income elasticity of demand? What is the definition of an inferior good? What is the definition of an inferior good? What values of YED would constitute 'price inelastic demand'? What is a normal good? What is a normal good? What is a normal good? What is meant by 'unit elastic demand will be the same as the % change in demand will be the same as the % change in price What values of YED would constitute a normal good? What is the definition of a lincome + the % change in demand will be the same as the % change in price What is the definition of a lincome + the % change in demand will be the same as the % change in demand will be the same as the % change in demand will be approach to the would constitute a lincome + the % change in demand will be a larger than the % change in income It is curvey What values of YED would constitute a lincome + the % change in demand will be a larger than the % change in lincome It is curvey What is another term for a luxury good? What is another term for a luxury What is another term for a luxury What is another term for a luxury What is come What is another term for a luxury What is come What is another term for a luxury What is another term for a luxury What is another term for a luxury What	73. Draw a price elastic	Flatter curve	would constitute complementary	Negative	
A What values would constitute 'perfectly elastic demand'? Horizontal elasticity of demand? 2. Give the formula for YED % ΔQd + %ΔY 77. What is meant by 'price inelastic demand'? Demand is not very sensitive to price -the % change in demand will be smaller than the % change in price 25. What is the definition of an inferior good? Where demand increases when incomes fall 78. What values would constitute 'price inelastic demand'? 0 to -1 % What values of YED would constitute an inferior good? Negative 79. Draw a price inelastic demand curve Steep curve inelastic demand will be the same as the % change in demand will be the same as the % change in price demand'? % What values of YED would constitute a normal good? Positive 80. What Is meant by 'unit elastic demand'? The % change in demand will be the same as the % change in price demand'? % What values of YED would constitute a normal good? Positive 81. What value would constitute 'unit elastic demand'? -1 Unit is converted in income the % change in demand will be the same as the % change in demand will be the same as the % change in price definition of a luxury good? Number of subs, proportion of income the % change in income the % change in income 1- 82. Draw a unit elastic demand'? It is curvey demand curve % What values of YED would constitute a luxury good? 1- 83. Give 3 factors which influence the PED of a product Number of subs, proportion of income, deg	'perfectly price		90. What would an XED	Unrelated goods	
Positive	constitute 'perfectly	_∞	definition of income elasticity of		
'price inelastic demand'? 78. What values would constitute 'price inelastic demand'? 79. Draw a price inelastic demand'? 80. What is meant by 'unit etastic demand'? 81. What value would curve 81. What value would constitute 'unit elastic demand'? 82. Draw a unit elastic demand'? 83. What value would constitute an inferior good? 84. What values of YED would constitute an inferior good? 85. What is a normal good? 86. What is meant by 'unit etastic demand'? 87. What values of YED would constitute an inferior good? 88. What values of YED would constitute an inferior good? 89. What values of YED would constitute an inferior good? 80. What is meant by 'unit etastic demand'? 81. What value would constitute 'unit elastic demand'? 82. Draw a unit elastic demand'? 83. What values of YED would constitute a luxury good? 84. What values of YED would constitute a luxury good? 85. What values of YED would constitute a luxury good? 86. What values of YED would constitute a luxury good? 87. What is another term for a luxury 88. What values of YED would constitute a luxury good? 89. What values of YED would constitute a luxury good? 80. What is another term for a luxury	elastic demand	Horizontal		$\%\Delta Qd$ ÷ $\%\Delta Y$	
constitute 'price inelastic demand'? 79 Draw a price inelastic demand curve 80. What is meant by 'unit elastic demand'? 81. What value would constitute an inferior good? 82. What is meant by 'unit elastic demand'? 83. What value would constitute an incomes rise 84. What values of YED would constitute a normal good? 85. What is the definition of a in income - the % change in demand will be the same as the % change in price definition of a unit in income - the % change in demand constitute 'unit elastic demand'? 86. Draw a unit elastic demand'? 87. What is the definition of a in income - the % change in demand uxury good? 88. What values of YED would constitute a luxury good? 89. What values of YED would constitute a luxury good? 80. What is another term for a luxury 81. What values of YED would constitute a luxury good? 82. What is another term for a luxury 83. Give 3 factors which income, degree of luxury/necessity, addictiveness, time period, definition	'price inelastic	- the % change in demand will be	definition of an		
provided inelastic demand curve 80. What is meant by 'unit elastic demand'? 81. What value would constitute 'unit elastic demand'? 82. Draw a unit elastic demand'? 83. Give 3 factors which influence the PED of a product 84. What value would constitute a normal good? 85. What values of YED would constitute a normal good? 86. What is the definition of a luxury good? 87. What is the definition of a luxury good? 88. What values of YED would constitute a luxury good? 88. What values of YED would constitute a luxury good? 89. What values of YED would constitute a luxury good? 80. What is another term for a luxury 81. What is another term for a luxury 82. Draw a unit elastic demand curve 83. Give 3 factors which influence the PED of a product 84. What values of YED would constitute a luxury good? 85. What values of YED would constitute a luxury good? 86. What values of YED would constitute a luxury good? 87. What is another term for a luxury	constitute 'price	0 to -1	would constitute an	Negative	
The % change in demand will be the same as the % change in price demand? The % change in demand will be the same as the % change in price Month value would constitute unit elastic demand? The % change in demand will be the same as the % change in price Month value would constitute a luxury good? The % change in demand will be the same as the % change in price Month value would constitute a luxury good? The % change in demand will be the same as the % change in price Month value would constitute a luxury good? The % change in demand will be the same as the % change in price Month value would constitute a luxury good? The % change in demand will be the same as the % change in price Month value would constitute a luxury good? The % change in demand will be the same as the % change in price Month value would constitute a luxury good? The % change in demand will be the same as the % change in price Month value would constitute a luxury good? The % change in demand will be the same as the % change in price Month value would constitute a luxury good? The % change in demand will be the same as the % change in price Month value would constitute a luxury good? The % change in demand will be the same as the % change in price Month value would constitute a luxury good? The % change in price would constitute a luxury good? The % change in price would constitute a luxury good? The % change in price would constitute a luxury good? The % change in price would constitute a luxury good? The % change in price would constitute a luxury good? The % change in price would constitute a luxury good? The % change in price would constitute a luxury good? The % change in price would constitute a luxury good?		Steep curve			
demand'? 81. What value would constitute 'unit elastic demand'? 82. Draw a unit elastic demand curve 83. Give 3 factors which influence the PED of a product 84. What value would constitute a luxury good? 85. What values of YED would constitute a luxury good? 86. What values of YED would constitute a luxury good? 87. What is the definition of a lin income - the % change in demand will be larger than the % change in income 88. What values of YED would constitute a luxury good? 89. What is another term for a luxury 89. What is another term for a luxury 89. What is another term for a luxury	80. What is meant by	3	would constitute a	Positive	
82. Draw a unit elastic demand curve 83. Give 3 factors which influence the PED of a product 84. What values of YED would constitute a luxury good? 85. What values of YED would constitute a luxury good? 86. What values of YED would constitute a luxury good? 87. What is another term for a luxury 88. What values of YED would constitute a luxury good? 89. What is another term for a luxury	81. What value would constitute 'unit		definition of a	in income - the % change in demand will be larger than the % change in	
83. Give 3 factors which influence the PED income, degree of luxury/necessity, addictiveness, time period, definition 84. Give 3 factors which income of subs, proportion of income, degree of luxury/necessity, addictiveness, time period, definition 95. What is another term for a luxury	82. Draw a unit elastic	It is curvey	would constitute a]+	
	influence the PED	income, degree of luxury/necessity,	99. What is another term for a luxury	Normal income elastic	

100. What is the term for a normal good which is not a luxury good?	Necessity	116. What is meant by 'price inelastic supply'?	Supply is not very sensitive to price - the % change in supply will be smaller than
101. Why do firms need to know the price elasticity of demand for their products?	So they can predict the impact of a price change on demand/revenue	117. What values would constitute 'price inelastic	the % change in price 0 to 1
102. Under what circumstances would an increase in price increase the revenue gained	PED inelastic	supply'? 118. Draw a price inelastic supply curve	Steep
from a product? 103. Under what circumstances would an increase in price	PED elastic	119. Give 3 factors which influence the PES of a product	Time, Capacity, Storability
decrease the revenue gained from a product?	PED unit elastic	120. What is meant by perfectly price inelastic demand?	Only one quantity can be supplied, regardless of the price
would an increase in price leave revenue unchanged?	FED UTIL GLASTIC	121. What values would constitute 'perfectly	0
105. Why do firms need to know the cross price elasticity of demand for their products?	To predict revenue change of one good when the price of another good changes	inelastic demand'? 122. Draw a perfectly inelastic demand curve	Vertical
106. Why do firms need to know the income price elasticity of demand for their products?	To predict revenue change of one good when incomes change	123. What is the economic definition of the long run?	The period of time in which at least one factor of production is fixed
107. Under what circumstances would a recession increase the sales of product?	Inferior good	124. Why is PES more elastic in the long run?	Because firms have time to increase capacity
108. What is the definition of price elasticity of supply?	The sensitivity of supply to changes in price	125. What is the definition of market failure?	Where the market mechanism doesn't result in socially optimum quantity or price
109. Give the formula for PES 110. What is meant by 'price	$\%\Delta Q$ s ÷ $\%\Delta P$ Supply is very sensitive to	126. Name 3 types of market failure	Information failure, externalities, public goods
elastic supply'?	price - the % change in supply will be bigger than the % change in price	127. What is an external benefit?	A benefit to a third party outside the transaction
iii. What values would constitute 'price elastic supply'?	1 to ∞	128. What is an external cost?	A cost to a third part outside the transaction
112. Draw a price elastic supply curve	Shallow	129. What is a social benefit?	The total benefit to private individuals and third parties: Private benefit plus External
113. What is meant by 'perfectly price elastic supply'?	Where supply is infinite at a certain price	130. What is a social cost?	benefit The total cost to private
114. What values would constitute 'perfectly elastic supply'?	∞	ioo. Trinat is a social Cost:	individuals and third parties: Private cost plus External cost
115. Draw a perfectly elastic supply curve	Horizontal	131. On a negative production externality diagram, how do	Where MB (MSB) meets MSC
		you find socially optimum equilibrium?	

132. On a negative production externality diagram, how do	Where MB (MSB) meets MPC	147. What is adverse selection?	Where information asymmetry leads to a narrower market
you find private equilibrium? 133. On a negative production	Overconsumption - the	148. What is moral hazard?	Where one party changes their behaviour after a transaction
externality diagram, how do you find Under/over consumption in a private market?	difference between the quantity at social equilibrium and at private equilibrium	149. How can independent reviews help moral hazard?	People are less likely to change their behaviour if they know it may affect their future transactions
134. On a positive consumption externality diagram, how do you find social equilibrium?	Where MC (MSC) meets MSB	150. What are the disadvantages of independent reviews?	They can be faked or sabotaged.
135. On a positive consumption externality diagram, how do you find private equilibrium?	Where MC (MSC) meets MPB	151. What are merit goods? (Edexcel)	Goods which would be demanded more if consumers had full information
136. On a positive consumption externality diagram, how do you find under/over	Underconsumption, the difference between the quantity at social	goods? (Edexcel)	Goods which would be demanded less if consumers had full information
consumption in a private market?	equilibrium and at private equilibrium	153. What is a tax?	A charge levied by government
137. What are the two features of public goods?	Non-excludability and Non-rivalry	154. What is the difference between an indirect and a direct tax?	Direct taxes are levied on income, indirect taxes are levied on expenditure.
138. What is the name for a good which displays only one feature?	Quasi-public goods	155. What are the two types of indirect tax?	Specific and Ad Valorem
139. What is non-excludability?	You can't stop someone consuming it once it has been provided	156. What is the difference between the two types of indirect tax?	Specific taxes add a fixed amount, ad valorem taxes add a percentage
140. What is non-rivalry?	One person's consumption does not affect another's	157. What is producer tax incidence?	The portion of government revenue arising from a tax which comes out of producer surplus
14). What is the free rider problem?	where consumers can consume good without paying for it because it is non-excludable	158. What is consumer tax incidence?	The portion of government revenue arising from a tax which comes from consumer surplus
142. Are public goods under- or over-consumed in the free market and why?	Underconsumed because no-one wants to pay for them; they all want to free-	159. What is deadweight loss?	The fall in total surplus that results from a market distortion, such as a tax
	ride on someone else's purchase	160. What is a subsidy?	A payment made by the government to a producer
143. Give a reason why governments may choose not to provide public goods	Expense, adverse consequences, crowding out, government inefficiency	161. Under what circumstance would tax burden fall mainly on the consumer?	When supply is more elastic than demand
144. Give an alternative to full state provision	Subsidisation, public-private partnerships	162. Under what circumstance would tax burden fall	When demand is more elastic than supply
145. What is information asymmetry?	Where one party in a transaction knows more than another	mainly on the producer? 163. Explain in words why taxes result in	Welfare lost from the units which are no longer consumed
146. Why is information assymetry a form of market failure?	It can lead to a suboptimal level of output	deadweight loss	<u> </u>

over other forms of intervention to correct a market failure	Raise revenue, they don't ignore price mechanism	178. If an unguaranteed minimum price is imposed, does a firm's revenue increase or decrease?	Depends on elasticity
165. Give 2 disadvantages of indirect taxes over other forms of intervention to correct a market failure	Difficult to predict results, cause deadweight loss	179. What is a guaranteed minimum price?	A legal price floor where the Government buys up the surplus
166. Give 2 reasons why governments may wish to subsidise a product	To encourage consumption, to encourage production, to protect producers	180. If a guaranteed minimum price is imposed, does a firm's revenue increase or decrease?	Increase
167. Give 2 benefits of subsidies over other forms of intervention to correct a market failure in a market of your choice	Politically popular, works with the price mechanism	181. Give a benefit of guaranteed minimum prices over unguaranteed minimum prices	Certainty for producers
168. Give 2 disadvantages of subsidies over other forms of intervention to correct a market failure in a market	Costs government money, welfare loss	182. Give a disadvantage of guaranteed minimum prices over unguaranteed minimum prices	Cost for government
of your choice 169. Explain in words why subsidies result in deadweight loss	Wasted resources on units where cost of production is greater	183. If a guaranteed minimum price is imposed, does firm's revenue increase or decrease?	Decrease
170. Under what circumstances would a	than utility gained PED inelastic	184. What is a maximum price?	A price ceiling above which a product cannot be sold
tax generate a lot of government revenue?		185. Give 2 reasons why a	To protect consumers, to
171. Under what circumstances would a tax result in a significant decrease	PED elastic	government may wish to put a maximum price on a product	encourage consumption, to discourgae production
in the quantity of the good consumed?		186. What is a tradeable pollution permit?	A right to pollute a certain amount, which can be bought
172. Under what circumstances would a subsidy result in a significant fall in	PED inelastic	187. Explain 3 benefits of	or sold Caps pollution (so gives
price for the consumer? 173. Under what circumstances would a	PED elastic	tradeable pollution permits	certainty), Lowers abatement costs, raises revenue
subsidy result in a significant increase in price for the producer?			Hard to enforce, hard to know how many permits to allocate,
174. Under what circumstances would a subsidy result in a significant	PED elastic	189. Explain 3 reasons why the	raises costs of production Market failure, equity, natural
increase in the quantity of a good consumed?		government might want to provide goods	monopoly
175. What is a minimum price?	A legal price floor below which the good cannot be sold	190. Explain 2 disadvantages of state provision	No market mechanism to inform abour consumer demands, expensive, no
176. Give 2 reasons why a government may wish to put a minimum price	Protect the producer, discourage		competition so can be inefficient
on a product 177. Does an unguarunteed minimum price cause a shortage or a surplus?	Surplus	191. Explain a benefit of information provision	Helps market to work properly so works with price mechanism

192. Explain 2 disadvantages of information provision	Expensive, changing habits is hard, consumers may not listen
193. What is ('command and control') regulation?	Where government decides if and how something can be produced and who can buy it
194. What forms might regulation take?	Age restrictions, packaging laws, bans
195. Explain a benefit of regulation	Gives more certainty than other laws
196. Explain 2 disadvantages of regulation	Doesn't work with price mechanism, needs to be enforced, takes a long time to implement
197. What is meant by 'government failure'?	Government intervention that fails to improve economic outcomes
198. Give 2 causes of government failure	Info gaps, unintended consequences, distorts price signals, admin costs
